Overall Dimensional Tolerances $\pm 5\%$

Ismat speed humps offer the best solutions for slowing down traffic safely. Installing our ramps will reduce the risk of accidents on your site. As manufacturers, our product range gives you best quality rubber, with the longest working life.

These are designed to enforce safe site speed limits slowing down all types, sizes and weights of vehicles.

Our speed humps are manufactured in Black and Yellow colour along with powerful amber reflectors which help drivers get the maximum warning and ensure that the ramps can be clearly seen 24/7.

Speed Bumps ramps have deep ribbed surfaces for extra grip and are supplied with suitable holes by our company and can be easily fixed in asphalt, concrete or block surfaces.

WHEEL STOPPERS

Sizes Available

Code	Width (A)	Height (B)

Available in Both Solid and Hollow Types
and in variable lengths

* All Dimensions in mm
Overall Dimensional Tolerances $\pm 5\%$

They are designed not to cause any damage to vehicles. KerbStopper Buffers give the drivers a clear warning that their rear wheels are parked correctly. They are supplied with Pre-drilled holes for concrete or asphalt installations.

The KerbStoppers reduce the risk of accidental damage to columns, concrete pillars and lighting columns, etc. KerbStopper Buffers are manufactured in solid rubber for a tough service life. The product absorbs impact and quickly recovers back to its original shape when the load is removed.

KerbStopper Buffers are cut to the exact size to suit your site plus or minus 10mm.

The product can be delivered in an all black rubber finish recommended for car parking, or black with a bright yellow stripe, the correct hazard warning colours.

(other variants available)
